Transport and Warehouse Operations Supervisor

Welcome to the Transport and Warehouse Operations Supervisor programme.

The level 3 programme is designed for experienced professionals, responsible for managing a warehouse team.

The Learner will develop skills in people management, alongside learning about practices specific to the warehouse industry. This includes topics such as operations planning, compliance and continuous improvement.

The programme focuses on the Learners personal effectiveness. They will learn about stakeholder management, understanding conflict and grievances and develop their ability to self-manage.

Once completed Learners will have gained a nationally recognised Transport and Warehouse Operations Supervisor Apprenticeship Standard.

ABOUT INTEC BUSINESS COLLEGES

We are a national training provider, who have worked with organisations across the UK helping them to upskill their workforce through vocational qualifications since 1982. Our mission is to enable our Learners to develop, progress and achieve.

THE PROGRAMME [*]

The Learner will receive a 2-3 hour monthly visit from a dedicated Intec Tutor who will deliver the Standard either remotely or in the Learner's place of work. We use a blended learning approach and all sessions will be supported by our online delivery platform, Smart Assessor, where Learners can upload their work and Tutors and Managers can monitor their progress between visits.

As part of an Apprenticeship, Learners are required to spend 6 hours a week (based on 30-hour contract) engaged in off the job training. This can be achieved in a variety of ways.
